Dear Colleagues,

Wishing you all a Happy 2012! AOGD for the first time brings you two skill –based workshops on Advanced Endoscopy & Advanced Gynecologic Oncology. Both workshops have been carefully planned and designed to benefit the practicing gynecologist. The Live Endoscopy workshop will be performed at AIIMS and relayed to venue. The aim is to improve safety of surgical care by ensuring incorporation of advanced technologies and proven standards of care. Traditional topics, cutting edge technologies and recent advances will be addressed. Advanced Gynecologic Oncology workshop on improving surgical skills in gynaecological cancers is directed to all Gynaecologists and Gynaecological Oncologists involved in the surgical management of advanced ovarian cancer and complex pelvic surgery. Tricks and surgical techniques to keep it simple in complex clinical situations will be presented by faculty of Consultant Gynae-oncologists from UK and India. Standards of surgical care, video demonstration of surgical techniques and management of complications will be discussed.
